#### Product description

Zettex Spruhboy is a completely environmentally friendly spray can because this spray uses no harmful propellants. The Spruhboy is mainly used in car garages, industry or in the service sector, for example with machine building and car maintenance. Spruhboy is ideally suited for processing cleaning resources and detecting leaks.

#### Material

Aluminum

#### Advantages

- Universal use in varying industrial environments.
- No recycling costs
- No environmental pollution with the use of air as propellant.
- Upon request with inner coating.

#### Application instructions

- The Spruhboy maintenance set can be used to replace parts of the Spruhboy. This can also be purchased from Zettex.
- The Spruhboy is always supplied including two valves and 4 spray heads.
- Filling material can be done at the top of the Spruhboy. With air as propellant filling can take place through the valve on the bottom side.
- The Air-Filling station can also be purchased. Here the Spruhboys are also filled by air pressure. After filling (takes approximately 4 to 5 seconds) the valve of the Spruhboy automatically connects.

#### Available forms

400 ml Aerosol

#### Safety recommendations

This technical information does not contain an MSDS (Material Safety Data Sheet). You must first fully read the MSDS before using this product.

Properties	Specification
Material	Aluminium
Surface	Powder coating
Application	Flexible hose, upside down function
Spray valve	Interchangeable
Content	400 ml
Function	Overpressure
Weight	350 g
